

## **The 2025 Shoes That Fit Sock Program**

### **Powered by our Amazing Volunteer, Marlene Johnson**

The 2025 Shoes That Fit Sock program distributed 3,880 pairs of socks!!

Communication within the districts is improving and word is getting out that STF can readily stock the schools as needed. Turnaround time from time of contact from the schools to delivery was 3 to 5 days.

The New Castle County community has really shown up and helped with sock drives.

We had 3 companies that were repeat contributors and 3 companies that came onboard this year.

Marlene actively managed the sock drives, the storage of socks and the delivery to schools. She said, *"I love working on this charity and continue to get more from it than I give."*

Thank you, Marlene, for your incredible devotion to this program which provides new socks to give to our students in need!!
